## SOFTWARE ENGINEER (JAVA / JAVASCRIPT)

With five years of experience in IT analysis and development as a Software Developer, I possess a solid record of successfully deploying Java and JavaScript projects across the entire software development life cycle. I have a strong proficiency in utilizing advanced frameworks including Spring Boot, Hibernate, React, Node, and Web services, while consistently following best design practices. Throughout my previous positions, I have actively collaborated with cross-functional teams and effectively communicated with clients, ensuring their requirements were met to the highest standards.
